Let us help solve your problem and arrange for a local sales engineer to visit your premises - you don't have to deal direct we will deal with you **IN PERSON!**

Robex is the leading manufacturer in the UK of a wide range of coatings and repair resins backed by a nationwide team of Sales Engineers. **There is no need for you to order direct from a catalogue, on-line or from a builders merchant, there is an alternative!**

Our Sales Engineers can show you samples, arrange for product demonstrations and of course advise you on the correct product to use. In addition when you have received your order a Sales Engineer is always on hand should you have any general queries or need technical support.

Alternatively if you would prefer Robex to apply the product for you, our Engineers can prepare an estimate or if necessary arrange for someone from our Contracting division to carry out a full survey and prepare a quotation for you.

Obviously, if you know the product you require and would rather deal with us direct your order will be dealt with promptly and efficiently.

Robex Concrete Floor Paint

A general purpose economical floor paint to brighten any type of floor

Robex Concrete Floor Paint

- Quick drying and easy to apply
- Resistant to oils
- Hard wearing
- Mid gloss finish
- Good adhesion

A superb polyurethane based floor paint for warehouses, workshops, garages, showrooms, offices and schools. Robex Concrete Floor Paint will seal dusty concrete floors and provide an excellent barrier against oil, dirt, grease, etc.

Concrete Floor Paint 5lts

1-2 packs	£58.95	3-4 packs	£53.06	5+ packs	£50.11
-----------	--------	-----------	--------	----------	--------

Coverage approx. 40m² per 5lts per coat. Two coats normally required.

Robex Non-Slip Concrete Floor Paint

A quick drying, hard wearing anti-slip coating for general use

- Easy to apply and quick drying
- Good resistance to oil
- Anti-slip resistance for pedestrians and light traffic
- Economical and easy to apply

Robex Non-Slip Concrete Floor Paint is applied by roller and transforms concrete floors economically. Easy to apply and quick drying the fine aggregate is suspended in the coating to give a nice even anti-slip finish.

Non-Slip Concrete Floor Paint 5lts

1-2 packs	£63.45	3-4 packs	£61.86	5+ packs	£60.28
-----------	--------	-----------	--------	----------	--------

Coverage approx. 40m² per 5lts per coat. Two coats normally required.

All prices exclude VAT and carriage

Robex Epoxy Floor Coating

A superb, hard wearing epoxy resin floor coating

Food Preparation Area

Workshop

Robex Epoxy Floor Coating

Robex Epoxy Floor Coating is based on our Epoxy Macro Technology and has been used around the world to protect floors in aggressive environments. Epoxy Floor Coating has a high solids content, very low odour and produces an excellent high film thickness.

- Tremendous adhesion
- 'Food safe' when cured
- Excellent chemical resistance
- Can be applied over existing coatings
- Can be used where under floor heating is installed
- Solvent free
- Very low odour during application
- Easy to apply

Robex Epoxy Floor Coating - Fast Cure

Our top selling Epoxy Floor Coating is now available in a fast curing version and will set in approximately four hours depending on the temperature. Therefore making this an ideal coating should you need to apply two coats in the same day.

Robex Epoxy Floor Coating - Anti Bacterial

Robex Epoxy Floor Coating is also available in an anti bacterial version that kills life threatening bacteria, quickly, effectively and permanently.

Robex Clear Epoxy Non-Slip

A clear solvent free epoxy resin system containing glass beads

- Will not alter the appearance of the surface
- Very low odour
- Can be used on most surfaces
- Excellent adhesion

Robex Clear Epoxy Non-Slip is for use on surfaces where it is important not to change the appearance of the substrate. Clear Epoxy Non-Slip has excellent adhesion and providing the surface is properly prepared will bond to marble and terrazzo and is ideal for step edges. This solvent free resin will provide a non-slip surface on 'plastic' type floor coverings and can be applied over existing paint providing it is well bonded.

Clear Epoxy Non-Slip 3kg

1-2 packs	£88.50	3-4 packs	£86.29	5+ packs	£84.08
-----------	--------	-----------	--------	----------	--------

Coverage approx. 15-20m² per 3kg depending on surface porosity.

Robex Epoxy Floor Paint

A hard wearing economical epoxy resin coating for all types of floors

- Very good abrasion resistance
- Excellent coverage
- Easy to apply

Robex Epoxy Floor Paint is an economical epoxy resin floor coating with excellent wear properties. Easy to apply by brush or roller Epoxy Floor Paint is ideal for sealing dusty concrete floors, for use on garage and workshop floors and outlasts conventional floor coatings.

Epoxy Floor Paint 5kg

1-2 packs	£84.50	3-4 packs	£82.39	5+ packs	£80.28
-----------	--------	-----------	--------	----------	--------

Coverage approx. 35m² per 5kg

All prices exclude VAT and carriage

Robex Super Build Epoxy

High Build, high gloss solvent free epoxy - the ultimate floor coating

The ultimate heavy duty floor coating for industrial use. Applied at approximately five times thicker than a normal floor paint, this high build resin system is ideal for use in plant rooms, laboratories, breweries, sewage plants, dairies, food processing plants, warehouses, etc.

- Superb high gloss finish
- Excellent chemical resistance
- Easy to clean
- Excellent abrasion resistance
- Solvent free - very low odour
- High build resin - five times thicker than a normal paint

Super Build Epoxy 5kg

1-2 packs	£134.95	3-4 packs	£128.20	5+ packs	£121.46
-----------	---------	-----------	---------	----------	---------

Coverage approx. 20m² per 5kg. One coat normally required, should a second coat be necessary this can be applied as soon as the first coat has dried, light traffic can be used after 12-16 hours.

Robex Epoxy Chemi Seal

A high build epoxy resin with excellent chemical resistance

Robex Epoxy Chemi Seal is ideal for use in areas where chemical spillage occurs.

- High gloss finish
- Easy to clean
- Solvent free formulation
- Available in non-slip
- Resistant to a wide range of chemicals
- Low odour during application - ideal for use in confined spaces

Epoxy Chemi Seal 5kg

1-2 packs	£139.95	3-4 packs	£132.95	5+ packs	£125.96
-----------	---------	-----------	---------	----------	---------

Epoxy Non-Slip Chemi Seal 6kg

1-2 packs	£144.50	3-4 packs	£137.28	5+ packs	£130.05
-----------	---------	-----------	---------	----------	---------

Coverage 20m² per 5kg, one coat normally required.

Robex Epoxy Bund Seal

A high build epoxy resin for sealing bund areas

Robex Epoxy Bund Seal has been developed as a high build epoxy resin coating to apply to banded wall areas to provide a waterproof seal. Once in place the high build resin provides an excellent barrier against chemical spillage.

- High build formulation
- Very low odour
- Excellent chemical resistance
- Fills cracks and joints between bund wall and floor

Epoxy Bund Sealer 2.5kg

1-2 packs	£59.95	3-4 packs	£58.45	5+ packs	£56.95
-----------	--------	-----------	--------	----------	--------

Coverage approx. 4-5m² per 2.5kg, one coat normally required.

All prices exclude VAT and carriage

Robex Block Paving Sealer

Stabilises block paving and joints

Robex Block Paving Sealer is ideal for sealing and protecting block paving and consolidating the joints between the paving. Once applied it provides an excellent barrier against general weathering, water, frost and is able to withstand industrial vacuum cleaning.

- Solvent free
- Easy to apply
- Helps restrict weed growth
- Protects the surface and helps with cleaning

Block Paving Sealer

5lts	1-2 packs	£34.95	3-4 packs	£34.08	5+ packs	£33.20
------	-----------	--------	-----------	--------	----------	--------

Coverage approx. 11m² per 5lts

Robex Powerfloat Primer

An adhesion promoting primer for dense surfaces

Robex Powerfloat Primer is a twin pack epoxy resin primer for use on dense surfaces such as power floated concrete. Powerfloat Primer can be used under or in conjunction with any Robex Epoxy Coating to help promote adhesion.

Powerfloat Primer

5kg	£62.45
-----	--------

Coverage approx. 30m² per 5kg

Robex Floor Preparation & Cleaning

Robex Power Prep C

A powerful cleaner for the preparation of floors prior to coating

Robex Power Prep C is a combination of surfactants, inhibitors, water soluble solvents and an inorganic acid designed to provide a product that will penetrate oil and grease rapidly to provide a clean surface prior to applying a Robex coating.

- Penetrates oil and grease
- Loosens dirt and soil
- Water soluble
- Can be used on stainless steel and aluminium

Power Prep C

5lts	£26.48
------	--------

Coverage approx 30m²

Robex Power Prep E

A powerful acid based etchant for preparing new or smooth concrete prior to applying a Robex coating

- Removes laitance
- Can be diluted with water

Power Prep E

5lts	£15.85
------	--------

Coverage approx 30m²

Laitance is a water rich top layer that can form when concrete is drying out and needs to be removed prior to applying a coating.

Robex Power Prep MPC

A multi surface cleaner and degreaser - ideal for cleaning floors painted with Robex coatings

Robex Power Prep MPC has been developed as a multi purpose cleaner with excellent grease removal properties. Power Prep MPC can be diluted with up to 40 parts cold water depending on the severity of the application. Power Prep MPC is ideal for cleaning floors painted with any Robex coating to remove oil, grease, rubber tyre marks and general contamination. Power Prep MPC can affect glass, aluminium and certain plastics at low dilution ratios, if in doubt test an area prior to application.

- Removes stubborn grease

Power Prep MPC

5lts	£22.45
------	--------

Coverage approx 30m²

Floor Coatings

Robex Dust Control

Hardens and dust proofs porous concrete floors

Robex Dust Control is a colourless liquid resin which contains chemically activated hardening agents that penetrate within the concrete to a depth of up to 7mm ensuring a sound, dust free surface.

Dust Control is also suitable for treating cement screeds, porous tiles, brickwork, blockwork and plaster.

- Microporous - allows the substrate to breathe
- Can be applied to a wide range of surfaces
- Virtually odourless
- Easy to apply

Dust Control 5lts

1-4 packs	£37.95	5-8 packs	£36.05	9+ packs	£34.16
-----------	--------	-----------	--------	----------	--------

Coverage approx. 30m² per 5 litres per coat. Two coats may be required on very dusty floors.

Robex Epoxy Clear Floor Coating

A solvent free clear epoxy resin system for sealing concrete in industrial conditions

- Solvent free - low odour
- Easy to clean
- Hard wearing
- Excellent resistance to chemicals, oil and petrol
- Dust proofs and toughens concrete surfaces

Robex Epoxy Clear Floor Coating provides a tough clear resin finish to protect against general contamination. One or two coats are usually required depending on the porosity of the concrete.

Epoxy Clear Floor Coating 5kg

1-2 packs	£99.50	3-4 packs	£97.01	5+ packs	£94.53
-----------	--------	-----------	--------	----------	--------

Coverage approx. 30m² per 5kg. Two coats normally required.

Robex Clear Floor Coating

An economical clear sealer for floors to provide an easy to clean dust proof surface

- Resists staining and provides a cleanable surface
- Easy to use - single pack formulation
- Quick drying
- Hard wearing

Robex Clear Floor Coating is an easy to apply clear sealer for concrete and similar surfaces. Rapid curing, once dry provides a barrier against general contamination in industrial use areas.

Clear Floor Coating 5lts

1-2 packs	£49.95	3-4 packs	£48.70	5+ packs	£47.45
-----------	--------	-----------	--------	----------	--------

Coverage approx. 40m² per 5lts. Two coats normally required

Robex Flexible Floor Coating

High build solvent free flexible polyurethane coating

Robex Flexible Floor Coating is ideal where a flexible coating is required such as floors that move due to vibrating machinery or expand and contract.

- Solvent free formulation
- Excellent flexibility
- High build resin
- Superb chemical resistance
- Can be steam cleaned
- Very low odour
- Ideal for waterproofing plant rooms, especially to protect against flooding

Flexible Floor Coating

5kg £128.95

Coverage approx. 20m² per 5kg per coat. One coat normally required.

Robex Rapid Cure Epoxy Coating

A rapid curing two pack solvent free epoxy resin

Robex Rapid Cure Epoxy Coating is a high build solvent free resin system that cures rapidly. Pedestrian traffic can be used after approximately 4 hours depending on the temperature. Epoxy Coating is ideal for laboratories, water treatment plants, food processing areas, breweries, sewage plants, dairies and schools etc. One coat is normally sufficient, should a further coat be required this can be applied as soon as the first coat can be walked on.

- Solvent free formula can be used over existing paint
- Excellent abrasion resistance
- Very low odour
- High build one coat
- Easy to clean
- Very hard wearing system
- Quick drying

Rapid Cure Epoxy Coating

2.325kg £79.95

Coverage approx. 7.5-10m² per 2.325kg per coat. One coat normally required.

Robex Epoxy Dustseal

A penetrating low odour two part liquid epoxy resin for sealing industrial dusty floors

Ideal for use on industrial and commercial floors, food processing plants, breweries, laboratories, warehouses, assembly areas, garages, etc.

- Solvent free
- Very low odour
- Excellent resistance against cleaning chemicals
- Provides an easy to clean finish

Epoxy Dustseal

5kg £94.95

Coverage approx. 35m² per 5kg per coat. To seal against dust one coat is normally sufficient, to provide an even colour a second coat is usually required.

All prices exclude VAT and carriage

Non-Slip Coatings

Robex Epoxy Safety Coat

Fine traction enhancing aggregate particles suspended in a hard wearing epoxy resin

Robex Epoxy Safety Coat

- Easy to apply
- Solvent free
- Excellent chemical resistance
- Can be used on concrete, sand and cement screed or concrete when under floor heating has been installed (up to 30°C surface temperature).
- Very low odour
- Hard wearing

Robex Epoxy Safety Coat is ideal for use in large areas and can be applied to a wide range of surfaces including concrete, metal and timber. The fine particles contained in the coating provide an anti-slip finish that is durable and has excellent chemical resistance.

Standard Colours

Premium Colours

Epoxy Safety Coat 5kg

Standard Colours 5kg	1-4 packs	£124.95	5-8 packs	£118.70	9+ packs	£112.46

Robex Epoxy Suregrip

A high build resin system for aggressive environments

- Excellent abrasion resistance
- Solvent free formula
- Very hard wearing
- Very low odour
- Tremendous chemical resistance

Robex Epoxy Suregrip is an excellent safety non-slip resin for use in aggressive environments. The aggregate is broadcast into the resin whilst the coating is still wet and gives a hard wearing non-slip finish that can be applied to virtually any surface.

Epoxy Suregrip 6kg

1-2 packs	£129.95	3-4 packs	£126.70	5+ packs	£123.45

Coverage approx. 15-20m² per 6kg

All prices exclude VAT and carriage

Robex Epoxy Safety Grip HD

A heavy duty resin and aggregate system that provides an extremely hard wearing anti-slip surface

Sports venues

Robex Epoxy Safety Grip HD

- Can be applied to most surfaces
- Very good chemical resistance
- Coarse anti-slip finish
- Solvent free
- Low odour
- Very hard wearing

Robex Epoxy Safety Grip HD provides an extremely hard wearing heavy duty anti-slip finish that can be applied to almost any surface. Ideal for use on ramps, stairs, walkways, loading bays, gantries and around machinery. This product is suitable for use internally and externally.

Epoxy Safety Grip HD can be applied as a one coat system, the aggregate is added to the resin whilst it is still wet and the resin is then 'back rolled' to encapsulate the aggregate. However, we recommend that it is applied as a two coat system i.e. apply the resin and aggregate and then once the resin has cured, apply a further coat.

Epoxy Safety Grip HD 10kg

1-4 packs	£134.95	5-8 packs	£128.20	9+ packs	£121.46
-----------	---------	-----------	---------	----------	---------

Coverage Approx: One coat 15m² per 10kg kit. Two coats 7m² per 10kg kit

Robex Non-Slip Concrete Floor Paint

A quick drying, hard wearing anti-slip coating for general use

- Easy to apply and quick drying
- Economical and easy to apply
- Good resistance to oil
- Anti-slip resistance for pedestrians and light traffic

Robex Non-Slip Concrete Floor Paint is applied by roller and transforms concrete floors economically. Easy to apply and quick drying the fine aggregate is suspended in the coating to give a nice even anti-slip finish.

Non-Slip Concrete Floor Paint 5lts

1-2 packs	£63.45	3-4 packs	£61.86	5+ packs	£60.28

Robex **E**poxy Crete

An extremely strong, epoxy resin mortar based on the latest novolac resin system, blended with graded quartz aggregate for repairing damaged concrete

- Tremendous adhesion
- Does not shrink
- Very low odour
- Can be used inside and out
- Excellent chemical resistance
- Up to eight times stronger than concrete
- Can be 'feather-edged'

Robex **E**Crete is a superb high strength epoxy resin repair mortar that can be used to repair all types of damaged concrete and is ideal for repairs to step edges, holes in floors, damaged concrete and for making up the difference in floor levels.

ECrete can be used to set metal guide rails in place, is ideal for shallow repairs to concrete and can be 'feather edged'.

-----------	---------	-----------	---------	----------	---------

Coverage approx. 2m² per 13kg at 5mm thick

Robex Coloured **E**poxy Crete

A coloured epoxy resin version of Robex **E**Crete

- Ideal for repairing coloured screeds
- Does not shrink
- Low odour
- Can be 'feather-edged'
- Excellent chemical resistance
- Tremendous strength

Robex Coloured **E**Crete has all the same features as Robex **E**Crete and is available in a range of colours. When using as a screed over large areas it is recommended that you prime the surface first using Robex **E**Tack Coat.

Coloured **E**Crete 10kg

1-2 packs	£79.95	3-4 packs	£75.95	5+ packs	£71.96
-----------	--------	-----------	--------	----------	--------

-----------	---------	-----------	---------	----------	---------

Coverage approx. 1.2m² per 10kg at 5mm thick

All prices exclude VAT and carriage

Robex Rapid **E**poxy Crete

Rapid Curing Epoxy Repair Mortar for high strength repairs

- Ready for traffic in 2-4 hours at 20°C
- Rapid curing

Robex Rapid **E**Crete is ideal for use where down time is important and has all the same properties as Robex **E**Crete.

Rapid **E**Crete

13kg	1-2 packs	£104.95	3-4 packs	£99.70	5+ packs	£94.46
26kg	1-2 packs	£169.95	3-4 packs	£152.96	5+ packs	£144.46

Coverage 2m² per 13kg at 5mm thick.

Our nationwide team of **Sales Engineers** are available to show you **product samples** and to **advise** you on the most suitable product to solve your problem.

Robex **E**poxy Tack Coat

Tack coat for use with Robex **E**Crete systems

- Low odour
- Tremendous adhesion
- Suitable for use indoors or outdoors

Robex **E**Tack Coat is a clear resin adhesive for use with Robex Vertical **E**Crete and any of the **E**Crete systems when being applied as a screed.

ETack Coat can also be used on very porous surfaces and where an even greater bond is required. **E**Tack Coat is applied to the surface by brush and before it has cured the **E**Crete System is applied on top.

ETack Coat

1m² pack	£14.95	6m² pack	£49.95
----------	--------	----------	--------

Robex **E**poxy Damp Prime

For use on damp surfaces prior to the application of Robex **E**Crete systems.

- Excellent adhesion to damp surfaces
- Can be used internally or externally
- Very low odour

Robex **E**Damp Prime is for use on damp surfaces, prior to the application of any Robex **E**Crete product. **E**Damp Prime is used in a similar way to the **E**Tack Coat.

EDamp Prime

1m² pack	£19.95	6m² pack	£56.95
----------	--------	----------	--------

Robex **E**poxy Crete Cold Set

A high strength resin system for application above or below zero

- Can be 'feather-edged'
- Very low odour
- Excellent chemical resistance
- Does not shrink
- Extremely hard wearing and chemical resistant

Robex **E**Crete Cold Set is ideal for use in chiller rooms and for use during cold weather.

ECrete Cold Set

6.5kg	1-2 packs	£59.95	3+ packs	£53.96

Coverage approx. 0.8m² per 6.5kg at 5mm

All prices exclude VAT and carriage

Floor Repairs

Robex Vertical **E**poxy Crete

A two part epoxy resin mortar for repairs to damaged vertical masonry

- Will not slump
- Excellent adhesion
- Solvent free - does not shrink - low odour
- Tremendous strength

Robex Vertical **E**Crete is a super tough epoxy resin combined with a light weight aggregate to provide an extremely strong mortar for vertical repairs. It is advisable to use with Robex **E**Tack Coat.

Vertical **E**Crete

2.5kg	1-2 packs	£41.95	3-4 packs	£40.90	5+ packs	£39.85
25kg	1-2 packs	£189.50	3-4 packs	£184.76	5+ packs	£180.03

Coverage approx. 0.6m² per 2.5kg at 5mm thick

Robex **E**poxy Crete Deepfill

Perfect for filling deep holes economically

- Very good compressive strength
- Low odour
- Solvent free

Robex **E**Crete Deepfill is based on an epoxy novalac resin system combined with a 4mm aggregate to create a high strength economical repair system. **E**Crete Deepfill can be used on its own or as a foundation before topping off with other Robex **E**Crete products.

Can be applied at depths from 10mm to 150mm.

ECrete Deepfill

25kg	£97.35
------	--------

Coverage approx. 1m² per 25kg at 15mm thick.

Robex Freezer Crete

A high strength resin repair mortar which can be applied at temperatures as low as -40°C

- Does not shrink
- Excellent chemical resistance
- Cures at low temperatures

Robex Freezer Crete has been used in cold stores throughout the World for over twenty years to repair damaged concrete floors. Freezer Crete has very low odour, tremendous strength and can be used for all types of repairs.

Freezer Crete

7kg	1-2 packs	£64.50	3-4 packs	£61.28	5+ packs	£58.05
21kg	1-2 packs	£167.50	3-4 packs	£159.13	5+ packs	£150.75

Coverage approx. 1m² per 7kg at 4mm thick

You don't have to deal direct - let one of our **highly trained Engineers** help you decide on the correct product to use.

Coverage approx 0.5m² per 10kg at 10mm

**Cures in
30mins**

Robex Accessories

12" Roller / Frame / Extension Pole

Excellent roller and frame - ideal for applying Robex coatings. The extension pole extends from 1.1 to 2 metres.

Chrome Mixing Paddle

100mm x 580mm chrome mixing paddle is ideal for all Robex twin pack resins and Robex Dura Level.

Robex Spiked Roller

For use with Robex Dura Level to release air bubbles.

Robex Spiked Shoes

Ideal for walking over uncured coatings or Robex Dura Level during application.

Plastic Application Scuttle

A 15 litre plastic scuttle for use with all Robex coatings. Ideal for use with the 12" roller.

Robex Cleaning Solvent RX117

A xylene based solvent cleaner for cleaning brushes and splashes.

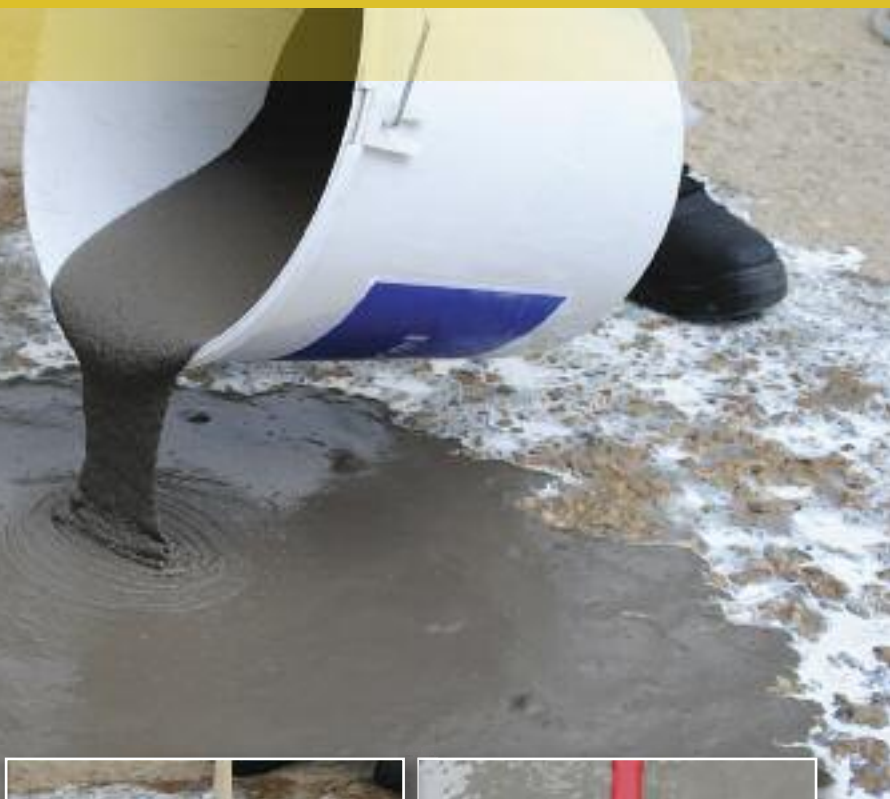

12" Roller	£2.10
12" Roller Frame	£10.55
Extension Pole	£8.43
Chrome Mixing Paddle	£9.23
Robex Spiked Roller	£15.37
Robex Spiked Shoes	£29.68
Plastic Application Scuttle 15Ltr	£5.83
Robex Cleaning Solvent 1Ltr	£12.95

Floor Repairs

Robex Dura Level

A high strength pourable grade polymer resin for re-surfacing damaged concrete

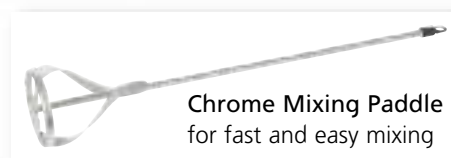

Apply primer

Once applied remove any air bubbles using a spiked roller

Accepts foot traffic after only 2 hours at 20°C

Chrome Mixing Paddle for fast and easy mixing

Robex Spiked Shoes for walking over uncured product during application

Robex Spiked Roller is ideal for removing air bubbles

Dura Level 21kg

1-2 packs	£57.95	3-7 packs	£55.05
8-15 packs	£52.16	15+ packs	£49.26

Coverage approx. 3.8m² per 21kgs at 3mm thick

Chrome Mixing Paddle £9.23

Robex Spiked Roller £15.37

Robex Spiked Shoes £29.68

Extension Pole for Spiked Roller £8.43

Robex Fine Crack Filler

A two pack epoxy resin filler for cracks in concrete

- Non shrink
- Low odour
- High strength

Fine Crack Filler is a self-levelling epoxy resin system for filling cracks in concrete prior to the application of a floor coating. Fine Crack Filler can also be used to fill small holes and indentations.

Fine Crack Filler

500gm £18.95

Coverage approx. 500gm will fill 30 linear metres of a crack 2mm wide x 4mm deep.

All prices exclude VAT and carriage

Simply sweep away
any loose debris

Apply the Rapid Tarmac
Repair and tamp using a
suitable implement

Your pot hole is
repaired and
ready to use!

Robex Rapid Tarmac Repair

A combination of aggregates and resins for instant repairs to pot holes.

- No mixing or heating required
- Can be used in wet, freezing and hot conditions
- No primer required
- Can be used immediately
- Solvent free

Robex Rapid Tarmac Repair can be used to fill holes in roads, tarmac and concrete surfaces without the use of a primer. Once applied Rapid Tarmac Repair can receive traffic immediately and is suitable for use in all types of weather conditions at any depth.

Rapid Tarmac Repair 25kg

1-2 packs	£43.95	3-5 packs	£39.56
6-30 packs	£37.36	31+ packs	£32.96

Coverage approx. 1m² per 25kg at 15mm thick.

Ready for
use in
minutes!

Robex Dura Crete

Rapid curing, high strength, cementitious repair system

- Incredible strength after only 4 hours
- Easy to use
- Suitable for use on damp areas
- Low odour
- Fibre reinforced
- Can be used after two hours by pedestrians*
- Open to traffic after only four hours

Robex Dura Crete reaches a compressive strength of 12N/mm² after only 4 hrs*. Based on a cementitious blend of aggregates with a freeze dried polymer, simply add water to activate. Ideal for use in deep concrete repairs and for large areas, pedestrians can use this product after only two hours* and traffic after four hours*. Ideal on depths from 10mm to 50mm.

Dura Crete 25kg

1-2 packs	£49.95	3-4 packs	£47.45	5+ packs	£44.96
-----------	--------	-----------	--------	----------	--------

Coverage approx. 1.2m² per 25kg at 10mm thick

* At 20°C

We manufacture - we supply and we apply!

Asphalt Coatings & Repairs

Robex Asphalt and Concrete Paint

A high quality solvent free coating for concrete and asphalt surfaces

Playgrounds

Cycle paths

Carpark

Tennis courts

Robex Asphalt and Concrete Paint

- Excellent resistance to UV and weathering
- Slip resistant properties
- Can be applied to damp surfaces
- Can be sprayed
- Quick drying
- Low odour

Robex Asphalt and Concrete Paint is a heavy duty solvent free resin system for coating asphalt and concrete surfaces. Ideal for use on tennis courts, cycle ways, car park bays, walkways on roofs and playgrounds.

Asphalt and Concrete Paint contains a special algicide and fungicide and has excellent flexibility and very low odour. Easily applied by brush, roller or spray, this superb product has been formulated to include a very light aggregate to give slip resistant qualities.

Asphalt & Concrete Paint 5lts

1-2 units	£88.95	3-4 units	£86.73	5+ units	£84.50
-----------	--------	-----------	--------	----------	--------

Coverage approx. 20-30m² per 5lts one coat usually sufficient

Robex Road Line Paint

Cost effective, hard wearing solutions for marking lines

- Easy to apply - single pack applied by brush
- Good chemical resistance
- Hard wearing
- Quick curing
- Suitable for internal and external use

Robex Road Line Paint is a hard wearing single pack line marking resin for use on almost any surface including wood, concrete, asphalt and tarmac. Easily applied by brush or roller Road Line Paint is available in a range of colours and is unaffected by sunlight.

Road Line Paint

Road Line Paint 5lts	£66.95
----------------------	--------

Coverage approx. 200 metres of a 50mm line per 5lts depending on the porosity of the surface.

All prices exclude VAT and carriage

Asphalt Restorer is applied as a brown liquid and within minutes turns black.

Robex Asphalt Restorer

A bitumen resin system for resurfacing worn and pitted tarmac

- Single pack - easy to apply
- Rapid curing - foot traffic after 2-4 hours depending on temperature
- Can be applied at 1.5mm per coat
- Excellent inter coat adhesion - can be applied in multiple layers
- Extends the life of bituminous surfaces by up to 30%

Robex Asphalt Restorer is simply poured onto the surface and spread using a squeegee or soft broom. Multiple coats may be required on badly worn areas.

Asphalt Restorer 25kg

1-2 packs	£54.95	3-4 packs	£53.58	5+ packs	£52.20
-----------	--------	-----------	--------	----------	--------

Coverage approx: 7.5-10m² per 25 kg at 1.5mm

Robex Asphalt Crack Filler

Rubberised bituminous crack filler for asphalt and tarmac

- Very good adhesion
- Excellent flexibility
- Ideal for cracks up to 3mm wide
- Cracks 3mm - 25mm can be filled by mixing a sand additive with the resin to form a mortar
- Can be used internally and externally

Robex Asphalt Crack Filler is a polymer modified, pourable rubberised bitumen for filling cracks in asphalt and tarmac. On its own it can be used on cracks up to 3mm, for wider cracks and joints (up to 25mm) sand can be added to bulk out the resin.

Asphalt Crack Filler

Asphalt Crack Filler 5lts	1-2 units	£29.45	3+ units	£26.51
Sand Additive 5kg				£7.55

Coverage will depend on the depth of the crack. 5lts should fill approximately 100 metres of a 5mm wide crack

Robex Flexible Joint Sealer

A flexible sealant for cracks and joints

- Tremendous flexibility
- Good compressive strength
- Superb bond strength

Robex Flexible Joint Sealer is a twin pack polyurethane resin for use on expansion joints. Easily applied by hand using a pouring vessel and once cured forms a high strength, liquid rubber flexible joint sealant. For most expansion joints a primer will not be required, however, where there is a lot of movement we recommend using Robex Joint Sealer Primer.

Flexible Joint Sealer should be applied at a depth of approximately twice the width of the joint.

Flexible Joint Sealer 2.5kg

1-2 packs	£52.95	3-4 packs	£51.63	5+ packs	£50.30
-----------	--------	-----------	--------	----------	--------

Joint Sealer Primer 250ml	(sufficient for 2 x 2.5kg units)	£9.35
---------------------------	----------------------------------	-------

Coverage approx. 2.5kg will fill 10 metres of a joint 12mm x 12mm

All prices exclude VAT and carriage

Line Marking Coatings & Tapes

Robex Epoxy Line Marker

Hi build, hard wearing line marking paint

- Solvent free - very low odour
- High film thickness - excellent durability
- Available in non-slip
- Excellent chemical resistance

Robex Epoxy Line Marker is ideal for applying lines in areas where there is a heavy workload. Epoxy Line Marker produces a high film thickness and is available in a non-slip version.

Epoxy Line Marker

Epoxy Line Marker 1.2kg	£39.95
-------------------------	--------

Epoxy Line Marker Non-Slip 1.4kg	£42.95
----------------------------------	--------

Coverage: Approx. 50m of 50mm wide line per pack

Robex Heavy Duty Line Marking Tape

Self adhesive heavy duty line marking tape

- Easy to apply - self adhesive backing
- Hard wearing - 1mm thick PVC with chamfered edges
- Available in a range of colours
- Easy to clean
- Available in 50mm, 75mm & 100mm widths

Robex Heavy Duty Line Marking Tape is quick and simple to use, simply peel off the backing tape and apply by hand. Once applied it can be put into service immediately.

Available in a wide range of colours including photoluminescent. Heavy Duty Line Marking Tape is ideal for marking safe exit routes or hazardous areas and with the photoluminescent once the lights go off it will glow for up to 30 minutes.

Heavy Duty Line Marking Tape

Coloured:	50mm	£77.00	75mm	£111.00	100mm	£145.00
Photoluminescent:	50mm	£94.00	75mm	£136.50	100mm	£178.50

All rolls are 30 metres in length.

Robex Easy Line Marker Tape

An economical self adhesive line marking tape

- Easy to use - self adhesive
- Can be applied by hand or machine
- Highly visible

Robex Easy Line Marker Tape is ideal for use in light industrial areas for marking lines or identifying designated areas such as walkways, boundaries and marking around plant and machinery.

Easy Line Marker Tape can be applied by hand or for larger areas we recommend using the Easy Line Marker Tape Applicator which incorporates a roller for a professional finish.

Tape and Applicator

Easy Line Marker Tape 33m x 50mm wide. 1-4 rolls	£8.95	5+ rolls	£8.06
Easy Line Marker Tape Applicator	£112.00		

All prices exclude VAT and carriage

Robex Easymark Line Marker

Quick and easy to use aerosol line marking system

- Quick and easy to use
- Rapid curing - touch dry in 10-15 minutes, fully cured in 24 hours
- Good chemical resistance
- Wide range of colours

Easymark applicators are available in three versions.

Two and four wheel applicators are ideal for marking car parks, factories, playgrounds, sports centres and warehouses.

The hand held applicator is for use with the 728ml aerosol and is ideal for marking in conjunction with our stencils or for general application.

Easymark Line Marker - Aerosol

728ml can Each £17.00 Box of 6 cans £95.00

Coverage: Approx. 100 metres of a 50mm wide line per 728ml aerosol

4 Wheel Applicator £132.00

2 Wheel Applicator £97.50

Hand Held Applicator £47.17

Our nationwide team of **Sales Engineers** are always available to advise on surface preparation, application and any other general queries you may have!

Robex Stencils

Re-usable stencils for use with Robex Line Marking Systems

Robex Stencils are ideal for spraying letters, numbers and symbols with the Robex Easymark Hand Held Applicator. The stencils can also be used for applying any of the Robex Floor Coatings or Robex Asphalt Paint by brush or roller.

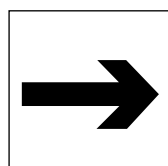

The stencils are available in numbers and letters (0-9 and A-Z) or as message stencils as shown below.

Letters and numbers are 300mm (this is the actual size of the characters)

The message stencils are 600mm x 400mm

Stencils

Message Stencils (each)	£26.50
Number Stencils Kit (0-9)	£32.49
Letter Stencils Kit (A-Z)	£79.49

All prices exclude VAT and carriage

Line Marking Coatings & Tapes

Dura Line 5m x 100mm wide roll

Pack of 10 white or yellow: £190.49

Disabled symbol 800mm x 800mm white or yellow: £38.95

Complies with Building Regulations 2004 Approved Document M

Disabled symbol 1.3m x 1.3m white or yellow: £67.95

Straight arrow 2m white: £37.95

Left arrow 2m white: £44.95

Right arrow 2m white: £44.95

Bicycle symbol 1200mm x 750mm white: £51.00

Dura Line Blow Torch £92.50

(Excluding gas - we recommend a standard propane gas bottle)

Dura Line Primer 750ml can £12.40

Robex Thermoplastic Dura Line

High performance, pre-formed thermoplastic road markings, numbers, words and symbols

- Quick and easy to apply
- Hard wearing, flexible, permanent markings
- No cutting required
- Can be used internally and externally
- White markings incorporate reflective glass beads
- Can be applied in hot or cold temperatures

Robex Thermoplastic Dura Line offers high performance qualities of hot applied thermoplastic line marking on a roll or pre-formed (no cutting required) numbers, letters and symbols. This incredible product is quick and easy to apply in hot or cold temperatures and is ideal for application to car parks, playgrounds, warehouses etc. The line or symbol is simply laid on the substrate and heated using the Robex Thermoplastic Dura Line Blow Torch. Words and numbers can be ordered to make the phrase required.

Standard Colours

White left, straight and right arrow 2m long

White bicycle symbol 1200mm x 750mm

Robex Dura Line Primer

Clear primer for weak concrete and dusty surfaces.

- Ideal for priming weak asphalt and dusty concrete
- Spray applied for ease of use
- Cures in 10-15 minutes

Coverage approx. 50m of a 100m line

Robex Thermoplastic Words and Numbers

Safety Tapes & Sheeting

Robex Safety-Grip Treads

Self-adhesive, anti-slip treads for safety on ramps, stairs and around machinery etc. Use on concrete, metal or wooden surfaces

- Suitable for internal and external applications
- Easily applied - self-adhesive
- Robex Safety-Grip Treads have a surface of resin-bonded aluminium oxide for a long lasting anti-slip finish and a pressure sensitive, water-resistant adhesive that bonds the PVC backing to all smooth, non-porous surfaces

Safety-Grip Treads

Each:	£8.50
Pack of 10:	£62.50
Pack of 50:	£227.00

Approx. size 610mm x 150mm.

Yellow and Black also available in coarse aggregate.

Robex Safety-Grip Conformable Treads

Conformable, self-adhesive anti-slip treads to improve safety on chequer plate, profiled metal and slabs. These treads are the same as the safety-grip treads (as above) but with a flexible aluminium backing that conforms to textured surfaces.

Safety-Grip Conformable Treads

Each:	£9.50
Pack of 10:	£81.50
Pack of 50:	£339.00

Approx. size 610mm x 150mm

Robex Safety-Grip Plates

Safety non-slip aluminium plates with an anti-slip PVC tread stuck firmly to the surface. Pre-drilled for easy screw fixing

- Perfect for application to difficult to clean areas, cold and damp walkways and steps

Safety-Grip Plate

Each:	£22.00
Pack of 10:	£192.56

Approx. size 635mm x 115mm

Screws Included

Robex Hazard Safety-Grip

Self-adhesive high visibility safety non-slip surface. Perfect for application to landings, around machinery, loading bays and any other hazardous areas

- Self-adhesive backing with a tough aluminium oxide grit safety surface, double-printed in black and yellow for high visibility
- Easily applied
- Repositionable self-adhesive backing
- On very porous or dusty surfaces you may need Robex Safety-Grip Primer (see page 29)

Hazard Safety-Grip

Length	9.1m x	9.1m x
Width	300mm	508mm
	£93.50	£152.00

Robex Safety-Grip Sheet

Easy to apply self adhesive PVC sheet with a tough safety non-slip gritty surface

- Instant safety non-slip surface for doorways, landings and workspaces, around machinery
- Easily cut to size for awkward spaces
- Can be folded 90° without cracking
- Easily applied and can be repositioned after first application
- For porous and/or dusty surfaces you may need Robex Safety-Grip Primer. One pack of primer will be sufficient for 2m² of Robex Safety-Grip Sheet

Safety-Grip Sheet

Approx. 1m x 1m £36.00

Safety-Grip Primer

500ml £14.00

Robex Safety-Grip Roll

An instant safety non-slip finish on a self-adhesive roll fantastic for paths, loading bays, ramps and entrance areas. The tough aluminium oxide safety grit is resin-bonded to a thick PVC roll and the heavy layer of water resistant adhesive makes this product ideal for use both internally and externally.

Safety-Grip Roll

Length	9.1m x	9.1m x	4.5m x	18m x	18m x
Width	610mm	1m	1m	300mm	500mm
	£230.00	£295.00	£162.00	£191.00	£295.00

Please state colour and grade (standard or coarse, black only available in extra coarse) when ordering. For very heavy trafficked areas we recommend Robex GRP Anti-Slip Flat Plates. For porous and/or dusty surfaces you may need Robex Safety-Grip Primer and Safety-Grip Edge Sealer (see page 29)

Robex Reflective Safety-Grip Treads

Reflective, self-adhesive, safety anti-slip treads. Ideal for use on concrete steps, stairs, metal or wooden surfaces. Same finish as Robex Safety-Grip Treads but with a 20mm wide reflective gold strip and a 10mm wide 'glow in the dark' strip.

- Easily applied internally or externally

Reflective Safety-Grip Treads

Each: £11.50 Pack of 10: £97.00

Approx. size 610mm x 150mm

Robex Caution Safety-Grip Treads

Self-adhesive, safety anti-slip tread warning of potential hazard. Ideal for use on stairs, concrete steps, metal or wooden surfaces.

- Easily applied internally or externally

Safety-Grip Treads Caution or Watch Your Step

Each: £9.00 Pack of 10: £80.50

Approx. size 610mm x 150mm.

Safety Tapes & Sheeting

	50mm	75mm	100mm	300mm
Each	£47.50	£57.00	£67.50	£187.00
Pack of 6	£238.00	£280.00	£352.00	£872.00

Please state colour when ordering. All rolls are approx. 18m long.

Safety-Grip Primer

500ml	£12.86
-------	--------

For porous and/or dusty surface you may need Robex Safety-Grip Primer

Robex Safety-Grip Coloured, Clear and Hazard Tapes

A superb range of safety non-slip tapes in a variety of strong colours. The Clear Safety Tape creates an appearance similar to frosted glass for a near-transparent finish ideal for keeping the decorative appearance of surfaces such as terrazzo, office and showroom floors and entrance foyers.

- Easy to use self-adhesive backing enabling repositioning without leaving marks
- Fantastic slip resistance
- Long life and consistent colour
- Can be folded 90° without cracking
- Ideal for indicating hazardous or safe escape routes

Robex Photoluminescent Safety-Grip Tapes

Robex Photoluminescent Safety-Grip Tape has the same resin-bonded gritty surface as Robex Safety-Grip Tape but the photoluminescent pigment is charged by light for approximately one hour when the lights go off providing a safe exit in the event of an emergency

- Available in plain, hazard and striped

Photoluminescent Plain & Hazard

Roof Coating

Roof-Flex can be applied by broom/roller or squeegee

For small areas or detailed work use a brush

Roof-Flex is waterproof immediately

Robex Roof-**Flex** Black

An outstanding waterproof coating that can be used in all weather conditions

- Tremendous flexibility
- Can be applied in the wet
- Waterproof immediately after application
- Bridges small holes, cracks and splits
- Excellent shelf-life

Robex Roof-Flex black is based on a combination of bitumen and rubber and will waterproof almost any surface in all types of weather. Easily applied by brush, roller or squeegee Roof-Flex has outstanding flexibility and excellent bond strength.

Roof-Flex Black

5kg	1-2 packs	£64.95	3-4 packs	£61.70	5+ packs	£58.46
15kg	1-2 packs	£163.45	3-4 packs	£155.28	5+ packs	£147.11

Coverage approx. 1-2m² per kilo depending on surface profile.

Robex Roof-**Flex** Aluminium

Robex Roof-Flex Aluminium is based on the same formula as Roof-Flex Black with 15% aluminium flake added to give outstanding reflective properties

- No need to overcoat with a reflective paint
- Superb flexibility
- Can be applied in all weathers

Roof-Flex Aluminium

5kg	1-2 packs	£74.95	3-4 packs	£71.20	5+ packs	£67.46
15kg	1-2 packs	£181.95	3-4 packs	£172.85	5+ packs	£163.76

Coverage approx. 1-2m² per kilo depending on surface profile.

Robex Roof-**Flex** Coloured

A superb flexible all weather roof coating

Robex Roof-Flex Coloured is based on an acrylic resin with reinforcing fibres which dry into a durable elastic coating that will not allow the passage of water, but does allow the substrate to breathe.

Roof-Flex Coloured is easily applied by brush to almost any building surface and can be applied during damp weather.

- Single coat application
- Will not wash off
- Excellent shelf life
- Superb flexibility
- Outstanding adhesion
- Unaffected by temperature change

Roof-Flex Coloured

5kg	1-2 packs	£79.50	3-4 packs	£75.53	5+ packs	£71.55
25kg	1-2 packs	£320.00	3-4 packs	£304.00	5+ packs	£288.00

Coverage approx. 0.5m² - 1.00m² per kilo depending on surface profile.

Roof-Flex Coloured can be applied by brush or roller

All prices exclude VAT and carriage

Robex Rust Converter

A mineral acid free rust treatment formulated to neutralise corrosion on ferrous materials and components. Rust converter also acts as a pre-coating preparation.

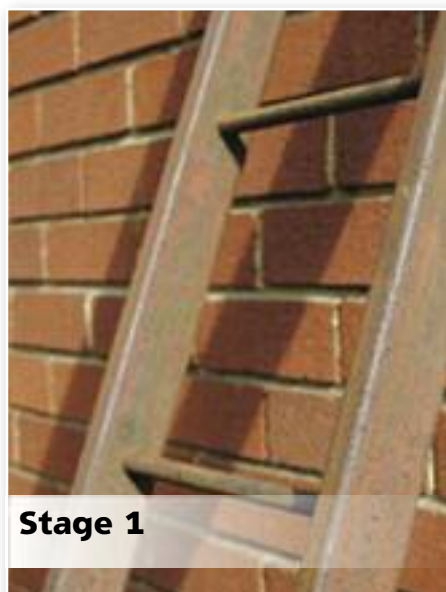

- Supplied ready for use
- Neutralises the corrosion process
- Provides a hard, water insoluble hydrophobic film
- Water based
- Can be applied to damp surfaces
- Mineral acid free
- Compatible with most paint surfaces

Robex Rust Converter has been designed to react rapidly on ferrous corrosion leaving a tough insoluble blue/black acrylic coating without the use of hazardous mineral acids. Once dry, Rust Converter can be over coated with primer or undercoat and is therefore ideal for automotive applications, ships, oil rigs, refineries, power stations, boat yards, bridges, railways.

Rust Converter

2kg	£54.95
-----	--------

Coverage approx. 35m² per 2kg

Stage 1

Stage 2

Stage 3

Robex Metal Coat

A superb self priming resin system to guard against rust

- Single pack
- Can be applied in low temperatures
- Excellent coverage
- Good flexibility
- Excellent UV resistance

Robex Metal Coat is a highly plasticised rubber resin system that can withstand exposure to aggressive environments.

Easy to apply and quick drying Metal Coat can be applied to bare or sound pre-painted metal surfaces internally or externally. **

Robex Metal Coat

2kg	£36.95
-----	--------

Coverage approx. 18-20 m² per 2kg

** Care must be taken when applying to alloys such as aluminium, usually a special primer is required for these surfaces.

Wall Coating

Robex Anti-Condensation Paint

An epoxy resin coating containing heat-insulating fillers

- Easy to apply
- Can be over painted
- Increases thermal stability
- High abrasion and chemical resistance
- Eliminates unsightly mildew growth

Robex Anti-Condensation Paint is an epoxy resin coating that has been specially developed for application to walls to help eliminate condensation. The special heat insulating granules reduce the loss of heat from the room in to the wall and the temperature of the surface of the wall remains at or near the temperature of the air in the room, therefore, the tendency for condensation to occur is greatly reduced.

Robex Anti-Condensation Paint has outstanding abrasion resistance and resistance to chemicals, vegetable oils, various acids and alkalis, petroleum products and detergents. etc. Anti-Condensation Paint can over painted for decorative purposes and this does not detract from its performance.

Robex Anti-Condensation Paint

2kg

£78.85

Coverage approx. 8m² per 2kg

Robex Epoxy Wall Coating

A high solids epoxy resin system containing Medi Guard for anti bacterial protection

- Solvent free
- Very low odour
- Kills life threatening bacteria
- Excellent adhesion, even on damp surfaces
- Easy to clean
- Hard wearing

Robex Epoxy Wall Coating is a superb hygienic resin system containing Medi Guard for anti bacterial protection. Life threatening bacteria such as Staphylococcus Aureus, E Coli, Salmonella Poona and Listeria Monocytogenes have been tested and were completely eradicated.*

Epoxy Wall Coating incorporates the latest glass flake reinforced technology and is completely 'food safe' when cured. During application the product has very low odour and forms a tremendous barrier against, oils, fats and greases.

Epoxy Wall Coating

2kg

£53.95

Coverage approx. 10-12m² per 2kg

Robex Epoxy Wall Coating can be applied to virtually any surface including ceramic tiles.

* Test data available on request.

All prices exclude VAT and carriage

ROBEX SEMI MOULDED SPEED BUMPS

Unlike other speed bumps, the Robex semi-solid speed bump incorporates a layer of recycled material coated with a layer of virgin material which dispenses with the need for painting. This extends the life-span of the product immensely. Robex Speed Bumps are a highly efficient way of controlling traffic speed on your premises, can be easily installed by just one person and are perfect for a wide range of situations on either concrete or asphalt surfaces. Robex Speed Bumps incorporate cable/hose recesses and reflectors for excellent night time visibility and will withstand 40 tonne HGVs.

- Extended life-span
- Bumps of any length can be formed
- Shoulder and inner segments sold separately
- Modular system formed from black and bright yellow segments
- Non-slip textured surface
- Quick and easy to install by just one person
- Unique 'dog bones' connect each segment together ensuring continuous strength throughout
- Acrylic corner cube reflectors in each section for maximum visibility at night and in poor weather conditions
- All fixings supplied FREE OF CHARGE

Overall Length of Bump	With Shoulders				Without Shoulders (kerb to kerb)	
	Inner Yellow	Inner Black	Shoulder Yellow	Shoulder Black	Inner Yellow	Inner Black
2.5m	2	2	1	1	3	2
3.0m	3	2	-	2	3	3
3.5m	3	3	1	1	4	3
4.0m	4	3	-	2	4	4
4.5m	4	4	1	1	5	4
5.0m	5	4	-	2	5	5
5.5m	5	5	1	1	6	5
6.0m	6	5	-	2	6	6

	10mph 50mm high	5mph 75mm high
Shoulder Segment 210mm length	£55.00	£62.00
Inner Segment 500mm length	£58.50	£72.00

420mm width

Please specify yellow or black and 10mph or 5mp when ordering

Fixed to the ground using 100mm long bolts (supplied) - drill and spanner required.

Important: Speed restriction signs should be clearly visible ahead of any bump location.

Robex Grit Bin and Rock Salt

The Robex Grit Bin is the ideal solution to keep grit or salt dry. Widely used by local authorities and on private premises, these durable bins are fully weatherproof with a reinforced lid and base design which makes them ideal for roadside storage of salt or grit.

- 170 litre/6 cu ft capacity
- Fully weatherproof
- Very durable, made from heavy duty UV resistant polyethylene
- Ideal for keeping salt and grit close to hand on roads, in car parks, on industrial estates, in schools or for domestic use
- UV stabilised for durability

Grit Bin				£179.00
Rock Salt 25kg	10 bags	£120.00	20 bags	£180.00
	42 bags	£298.00		

Robex Ice Melt Crystals

Robex Ice Melt Crystals are an exothermic chemical that melt snow and ice up to 8 times faster than salt. Unlike salt, this highly effective lightweight product is less corrosive, leaves no residue and will not damage the surface or discolour boots, shoes, carpets, etc. Ice Melt Crystals work for longer than salt and give greater coverage.

- Safe and Clean
- Quick and easy to use
- Rapid melting action
- 100% soluble

Ice Melt Crystals	18kg	£59.33
